

EAST ROCK CABINET - ASHEN OAK (431762)

~~**$449.95**~~ **$289.95**

The contemporary accent cabinet from the East Rock® collection blends function and fashion for a piece that is anything but ordinary.

The contemporary accent cabinet from the East Rock® collection blends function and fashion for a piece that is anything but ordinary. This accent cabinet with door can accommodate up to a 50” TV weighing 50 lbs. or less, making your space the perfect place for movie marathons, gaming sessions, or binge watching. Or use this piece as an accent storage cabinet to house a stereo, record player, or audio devices. Two adjustable shelves allow you to tailor this console cabinet to your own needs. The cubbyhole areas hold 13” storage bins (sold separately). Additional hidden storage behind the touch-latch, louvered door can hold movies, board games, or other stuff you want to hide away. Cord management pass-throughs in the back help eliminate wire and cable clutter. Finished in a soft Ashen Oak®, the top is brilliantly accented with high-wear DuraGraph® faux white marble patina. This accent cabinet with open shelves will add fresh character to any living room, guest room, dining room, or entryway.
