

**GAMING/COFFEE TABLE
W/REVERSIBLE TOP (433850)**~~\$499.95~~ \$249.95

This coffee table with removable top from the Cottage Road® collection is especially unique.

A square coffee table is a great addition to any living room. This coffee table with removable top from the Cottage Road® collection is especially unique. Finished in Soft White with Lintel Oak® accents, it functions and looks like a standard coffee table. Then voilà, simply flip or remove the top altogether to unveil a unique and beautifully designed game coffee table. The reversible top features an oversized checkers or chess pattern on the back surface. You can display either surface as you wish – making it easy to function as a checkerboard coffee table. Remove the top completely to reveal an inside lower shelf that is the perfect spot to keep unfinished games or puzzles intact, hidden, and out of the way until the gaming is ready to resume. This shelf has handles for easy movement and can be adjusted to three positions for storage, play, or taller game pieces. A 3-inch-deep open ledge on opposing sides of this chess board coffee table can be used for temporary placement of gaming pieces. This table is finished on all sides to allow convenient placement in any room.
