

GHOSTBED ADJUSTABLE BASE

$1,499.95

This amazing GhostBed adjustable base will make sleeping a joy again. Pairs beautifully with the Springwall Laurier mattress (sold separately).

Technology at your fingertips! The GhostBed adjustable base comes with a backlit wireless remote with a built in flashlight. Preset and memory buttons, dual whisper quiet massage and under bed led lights are a few of the features of this base. It has a whisper quiet lift system and fits most modern bed frames and headboards.

750 lb. weight limit.

- **Manufacturer:** GHOSTBED
- **Product Type:** Adjustable Base
- **Features:**
  - Head Elevation: Elevating your head opens your breathing passages, which improves airflow and may reduce snoring.
  - Legs and Feet Elevation: Raising your legs and feet releases pressure on your lower spine, increases blood circulation and soothes tired, achy feet.
  - Zero-Gravity Position: Sleeping with your head and legs elevated balances the effect of gravity across your body. Less pressure on your heart means it doesn’t have to work as hard to circulate blood, which in turn increases your lung capacity and blood oxygen levels.
  - Massage: Massage therapy stimulates blood flow, bringing more oxygen to overworked body parts and ultimately reducing tension & muscle fatigue.
- **Pricing:**
  - Queen adjustable base - $1499.95
  - King adjustable base (Two Twin XL bases) - $1199.95 each
