A good pillow is more than fluff. It gently supports your head and neck. Relieves pressure. Keeps you cool and comfortable. The Anatomic pillow has two loft heights and an ergonomically curved surface help alleviate neck pain for medium-to-large built back or side sleepers—and those who roll between the two.

Designed to provide superior relief and support, the Anatomic is especially popular among those who suffer neck, back or shoulder pain. The ergonomically curved surface is a good fit for medium-to-large built back or side sleepers—and those who roll between the two!

Technogel's patented gel is molded seamlessly to a memory foam base in an innovative new design that harmonizes with your body to create the ultimate sleep system. But, feeling is believing. Stop by to discover something more extraordinary than the rest.
